JACK ROUSH

I have a passion for all things performance, whether it is on the road, the racetrack, or the sky (you probably know my affection for airplanes, especially the World War II warbirds). You too must share these same passions, at least on the automotive side.

Passion is a great word to describe ROUSH Performance and the people that work here. They share your passion for high-performance vehicles, whether they are built in our Plymouth, Mich., assembly area or someone's garage. The Customer Service Department is staffed by former technicians who have built hundreds of ROUSH Mustangs and F-150 trucks so they literally know them inside and out. The engineers have a passion to match OEM specs in quality and durability, and a passion to design the finest products in the industry.

The word passion can also be used to describe the members of the new ROUSH Road Crew, the official club for owners and fans of the fast lane. These people are some of the best ambassadors we have for the brand, and are as passionate as we are about ROUSH. There are plenty of events planned around the country to hang out and have fun with like-minded people, so consider joining the RRC today, if you haven't already (see page 8 for details).

For those who have a passion for horsepower, the new line of phased R2300 ROUSHchargers will get your heart beating faster. For the first time, owners can jump in at any level of horsepower as the budget and desire allows. Start at the Phase 1 base and increase the performance over time, or go all the way to Phase 3. The ROUSHcharger has long been the industry standard, and now there are more choices to help your passion for horsepower grow.

There are a lot of things happening at ROUSH these days, and we're glad to have you as part of the family. If you ever have any questions or need more information on our line of vehicles, parts, engines or the ROUSH Install Center, call 800-59-ROUSH or visit our web site at www.ROUSHperformance.com.

AN AMERICAN LEGEND

The Roush Fenway Racing trademarks, name and/or likeness used by authority of Roush Fenway Racing, LLC.

ROUSH ENTERPRISES

It's hard to believe, but Roush was founded back during the bicentennial; in 1976 the company was known as Jack Roush Performance Engineering. Since then, it has grown to include five divisions with close to 3,000 employees in facilities located throughout the United States.

From the intense competition of the race track and the global automotive marketplace to precisely manufactured products for the life sciences industry, the companies that comprise Roush Enterprises share a passion for performance and a laser focus on success. Today's intensely competitive market demands that exciting products get delivered to market quickly and economically. Roush, with a comprehensive portfolio of services ranging from motorsports management to product design, engineering, testing, and manufacturing, is uniquely qualified to meet that demand. For over 35 years, we have combined seamlessly integrated services with sophisticated program management tools to provide our global customers the assurance of quality, value, and technical expertise.

The companies that comprise the Roush family include:

- **Roush Industries** – A leading supplier of integrated engineering, prototyping, testing and manufacturing services.
- **Roush Fenway Racing** – As the winningest Ford team in racing, they are able to offer the most diverse, effective, and value-laden motorsports marketing platforms.
- **ROUSH Performance** – The first specialty-vehicle company to combine race-proven technology with advanced automotive engineering.
- **ROUSH CleanTech** – Develops liquid propane autogas fuel systems for fleets utilizing Ford commercial trucks and vans, offering the end user a smaller emissions profile and significantly reduced operating costs.

Roush Performance Products Mission Statement

Our mission statement is quite simple. It is our guiding light each day and reads:

ROUSH Performance Products strives to be the world's best manufacturer and distributor of integrated performance automobiles and specialty equipment.

Definition: "Best" – The most effective product, at the most competitive price, with the most user-friendly features.

As stewards of one of the world's most relevant performance brands, it is our obligation to ensure that the products carrying the ROUSH brand are safe, reliable, and refined.

Roush is the only global supplier of engineering services to offer in-house expertise in areas ranging from body, chassis, powertrain, and NVH engineering through electrical systems engineering, thermal systems engineering, and CAE. The parts and vehicles that ROUSH Performance markets take advantage of the full range of company capabilities.

Many years ago, Jack Roush realized that the path to success is through vertical integration. The more steps in the process that you control, the better the product will turn out. With that in mind, he took the steps to create all the divisions necessary to produce the finest automotive parts and vehicles on the market.

Roush can create the design, develop the prototypes, engineer the mechanics, manufacture the pieces, assemble, and ship the finished goods. In many cases, there are no additional outside vendors needed.

The "Wheel of Capabilities" shown here offers just a glimpse into the full capabilities of Roush.

ROUSH ROAD CREW

The ROUSH® Road Crew™ is the official club for owners and enthusiasts of ROUSH high-performance vehicles, parts, and crate engines.

No matter what you like to do – hang out at a car show, cruise the roads, drive hard on the racetrack, participate in cool member-only events, or chat on the web – the ROUSH Road Crew will fuel your passion while in the company of like-minded people. You do not have to own a ROUSH vehicle to be a member.

Membership comes with benefits:

- New member kit (personalized credential, RRC hat, and more)
- Annual ROUSH Road Crew window decal
- Access to specialized events
- Access to member-only forums and information
- 10% rebate on parts and apparel purchased through ROUSH Performance*
- 15% discount on ROUSH Collection merchandise*

*Some exclusions apply

JOIN TODAY!

Membership in the ROUSH Road Crew is for anyone who enjoys life in the fast lane. With nearly 20,000 specialty vehicles on the roads of America, ROUSH Performance has created a lifestyle club for the owners and fans of our products. The RRC offers a high level of interaction with ROUSH employees, exciting activities each year, and an open forum for information about the vehicles, parts, crate engines... everything that makes up the ROUSH Performance universe.

- A street address is required for shipping of membership packages. PO boxes are not acceptable.
- ROUSH Road Crew membership numbers will be assigned in the order they are received.
- Forms returned without payment will not be processed.
- Payment must be made in US Dollars. Prices subject to change without notice.
- ROUSH reserves the right to approve or deny any membership application for any reason whatsoever.
- ROUSH reserves the right to terminate any approved membership at any time for any reason and without liability except reimbursement of terminated member's current membership dues.
- ROUSH does not sell, rent or lease its member lists to third parties. We may, from time to time, contact you on behalf of business partners about a particular offering that may be of interest to you.

PERFORMANCE PARTNERS

ROUSH Technical Expertise Crosses Over Other Brands

ROUSH Performance has long stood as the pinnacle of high quality and high performance. The vehicles and parts sold by the company are the result of the best engineers in the industry, the most extensive testing to OEM specifications, and often thousands of man-hours of time sweating the details.

This same level of attention is now being used to evaluate third-party brands. We will only bring in brands that stand among the highest quality in the industry. As a result of our initial evaluations, ROUSH now offers a selection of products from ESCORT® radar detectors, Ford Racing performance parts and Meguiar's car care products. These items are available on the ROUSH Performance web site (www.ROUSHperformance.com) and via our customer service phone lines (1-800-59-ROUSH).

No doubt people will ask "Why should I buy these parts from ROUSH?" That's a good question. Not only are we careful about selecting what products to offer, upholding the highest performance and quality standards in the industry, but we also have the most knowledgeable staff in the industry to help the customer at each step along the way. We are committed to helping you find the product that best fits your needs by offering the best information and advice possible.

Look for more brands to join the ROUSH family as we expand our product offerings. We are always looking for brands that will complement those that ROUSH designs. "People can expect to see our product offerings grow considerably over the coming months," said Jack Roush, Jr., ROUSH Performance dealer and consumer marketing manager.

ESCORT
DRIVE SMARTER™

ROUSH Performance, the first specialty-vehicle company to combine race-proven technology with advanced automotive engineering, has become the most trusted name in Ford performance. Since being formed in 1995, ROUSH Performance has engineered and produced the highest quality and most durable performance products for late model Ford Mustangs, F-150s and other Ford vehicles.

ROUSH Performance understands how important your vehicle is to you because each team member is as passionate about high-performance as you are. Many of our representatives began their careers with ROUSH by working as mechanics on our vehicle assembly line and many spend their free time customizing their own vehicles.

Our team at ROUSH Performance also shares this same passion for performance with our extensive network of ROUSH authorized dealers throughout the U.S. and Canada, and rapidly growing worldwide. Whether you're looking for billet parts to dress up your engine, or high-powered supercharger systems for added boost, ROUSH Performance or one of our qualified dealers can support you with the performance upgrades you need.

Our industry-leading engineering and quality control programs offer the most complete line of high-performance, street-legal products by any one automotive aftermarket company. Don't just take our word for it – here's what other's had to say about ROUSH Performance Products:

"ROUSH is one of the most respected names in Mustang performance." – StangTV

"An R2300 ROUSHcharger supplies plenty of compressed air to go from mild to wild as soon as you press the loud pedal." – Muscle Mustangs and Fast Fords

"... the new short-block will certainly allow turning up the wick of the efficient TVS blower through a more aggressive tune should the owner so desire." – 5.0 Mustang & Super Fords

"There is really nothing that compares to the Roush brand.... not in quality, not in reliability, not in heritage. Jack Roush has created a family of car owners. A family that will extend from generation to generation." – John Trischler, Performance Manager, Ray Skillman Ford

NOW OPEN! MAKE SURE TO STOP BY THE ROUSH SPEED SHOP LOCATED INSIDE THE ROUSH PERFORMANCE OFFICE IN PLYMOUTH, MICHIGAN. TAKE A TOUR OF OUR ASSEMBLY OPERATIONS OR SCHEDULE AN INSTALLATION FOR YOUR VEHICLE. OUR IN-HOUSE PARTS SPECIALISTS ARE READY TO HELP.

POWERTRAIN

"If there is one thing that I know, it's how to maximize horsepower, and I've got a bunch of engineers here at ROUSH dedicated to that same thing. But at ROUSH, it's more than just pumping raw horsepower from an engine. We look at what we can do to keep the engine running cool and strong for the life of the car each and every time you turn the key and hit the gas pedal. And, our ROUSHcharger features an industry leading 3-year, 36,000-mile powertrain warranty." — Jack Roush

Working in his family's garage as a small boy, Jack Roush has always had a passionate pursuit of horsepower. This has carried through his successful racing career and has shown itself as a key element to ROUSH Performance's offerings.

ROUSH powertrain kits provide for extreme power while balancing quality and reliability at the same time. You can increase horsepower with our industry-leading line of superchargers, called ROUSHchargers, as well as with cold air intakes, pulleys, and belts. Or add the necessary robustness that your high horsepower vehicle requires with our clutches, driveshafts, belt tensioners, forged engine components, and more.

POWERTRAIN

ROUSH has long been recognized as the leader in Ford powertrain development. With extensive expertise in OEM powertrain engineering, coupled with the most successful Ford-powered racing programs in history, it's easy to see that ROUSH knows Ford engines.

Now ROUSH brings you more options for increasing horsepower and adding muscle to your Ford Mustang and F-150. ROUSH has revolutionized the aftermarket industry with the introduction of "Phased" superchargers, allowing you to build up power at your own pace. Many of these superchargers are the same systems that are installed on the assembly line for ROUSH-built vehicles.

EATON – Technology Partners in Performance

ROUSH teamed up with industry leader Eaton Corporation to ensure that the best performing and most durable superchargers are being produced from the ROUSH facilities. Among other things, Eaton manufactures highly engineered, roots-type positive displacement superchargers for the OEM's, as well as rotating assemblies for the aftermarket.

The ROUSH Phased superchargers, called ROUSHchargers, feature Eaton's cutting-edge TVS technology (Twin Vortices Series) which features twin four-lobe rotors, twisted 160 degrees, and higher flowing inlet and outlet ports. This combination greatly enhances thermal efficiency, delivering greater volumetric capacity and enabling higher operating speeds, giving your engine more boost without wasting energy. The TVS' 160-degree helix-rotor design allows for smaller superchargers, thus reducing package size and reducing the weight of the system.

Using the latest in automotive and motorsports technologies, ROUSH has spent thousands of hours developing and testing the full line of ROUSHchargers. Each supercharger is hand-built in our state-of-the-art assembly clean room and is flow-tested to strict performance standards in our supercharger spin lab.

Exclusive ROUSH-Engineered Calibrations

To maximize the performance of any supercharger system, you must have a highly refined calibration. Consequently, ROUSH provides the most highly-refined calibrations in the supercharger market, resulting in industry-leading reliability, performance, and engine durability across the gamut of environmental and load conditions. No other competitive system comes close.

New PHASE of Performance

The concept of Phased ROUSHchargers is simple: buy in at your preferred base level and build up power at a later time with upgrade kits. Phased ROUSHchargers are available in multiple power levels, designed to fit your performance and budgetary needs. The Phase 1 ROUSHcharger provides a great foundation that offers high performance at a great value. This kit is the most popular kit in the Phased ROUSHcharger line up, offering performance and protection in one simple package. The Phase 2 ROUSHcharger builds upon the Phase 1 charger and adds more horsepower and torque to an already stout supercharger system. Finally, the Phase 3 ROUSHcharger, available exclusively for 5.0L Mustangs, is ROUSH's most powerful and performance-driven supercharger. ROUSH didn't stop the enhancements of the Phase 3 charger with just more power, we added more protection to the kit with additional parts.

Upgrade Kits

If you already own a calibrated Phased ROUSHcharger and want to add more performance, take a look at our upgrade kits. ROUSH engineers kept the customer in mind when designing the line of Phased ROUSHchargers, designing the kits to re-use existing parts from the base kit and upgrading simple bolt-on parts such as a pulley, belt, or cold air intake. As with the calibrated kits, the upgrade kits are sold as complete kits, including all necessary components needed for installation, as well as a PCM calibration.

Warranty

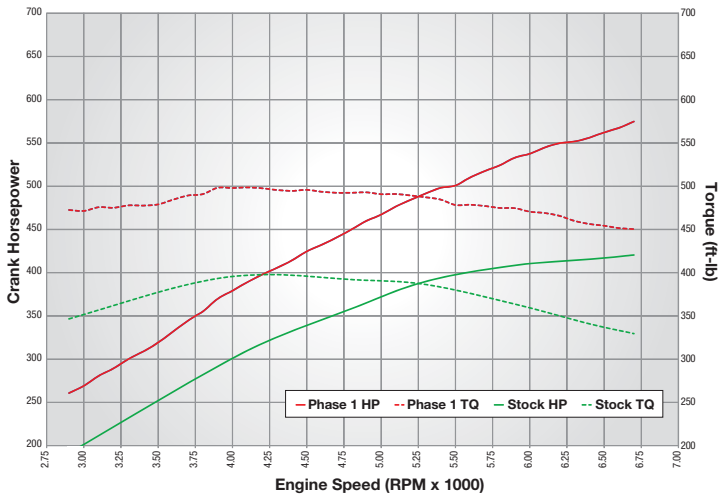
ROUSH offers one of the most complete and extensive supercharger warranty programs on each of our ROUSHcharger systems. Most ROUSHcharger systems come standard with ROUSH's 3 Year/36,000 Mile ROUSH Parts Limited Warranty. Optional 1 Year/12,000 Mile and 3 Year/36,000 Mile ROUSH Complete Powertrain Limited Warranties are also available. If you're looking for that added peace of mind, ROUSH warranties have you covered.

5.0L MUSTANG

ROUSH Phase 1 Supercharger Kit

2011-2014 Ford Mustang GT 5.0L

PHASE ROUSHCHARGED™



575 HP/505 ft-lb

Morph your manual or automatic transmission 5.0L-4v Mustang into a tire-shredding beast! Calibrated to deliver 575 HP and 505 ft-lb of torque to the 2011-2014 Ford Mustang 5.0L-4v V8 powertrain, this Phase 1 ROUSHcharger kit adds up to 163 HP and 115 ft-lb of torque over the stock Mustang. First in the Phased ROUSHcharger lineup, the Phase 1 kit is legal in all 50 states and Canada (CARB E.O. #D-418-22), and is protected by ROUSH's 3 Year/36,000 Mile Parts Only warranty. An optional 3 Year/36,000 Mile Complete Powertrain warranty is also available at an additional cost. Primary components of the Phase 1 ROUSH TVS Supercharger kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- 85 mm Supercharger Pulley
- Aluminum Upper and Lower Intake Manifolds
- High-efficiency Intercooler System
- Twin 60 mm Throttle Body
- Low-restriction ROUSH Air Induction System
- ROUSH Custom PCM Calibration

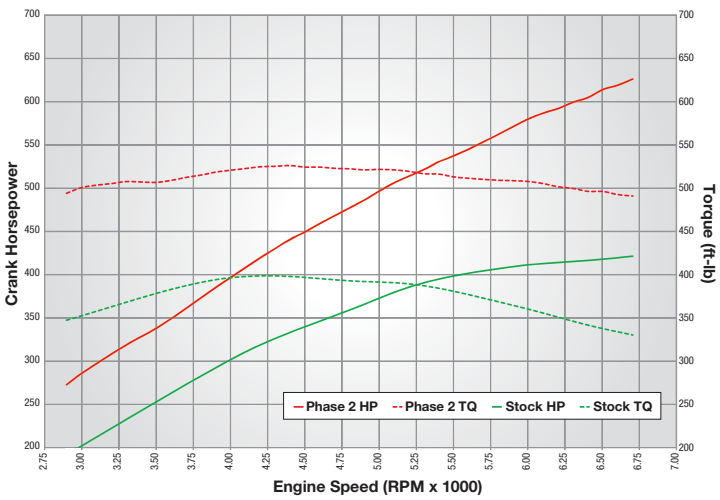
421388 2011-2014 Phase 1 – 575 HP Calibrated Supercharger Kit

421387 2011-2014 Pre-Phase 1-to-Phase 1 Upgrade Kit (525/540 HP to 575 HP)

421602 Fuel Pump Voltage Regulator

ROUSH Phase 2 Supercharger Kit

2011-2014 Ford Mustang GT 5.0L



625 HP/525 ft-lb

This Supercharger kit may be the second of the Phased ROUSHcharger group, but there's nothing secondary about this kit. Bringing the stock 5.0L-4v V8 Mustang to an impressive 625 HP with 525 ft-lb of torque, the Phase 2 ROUSHcharger adds up to 213 HP and 135 ft-lb over stock. Available for both manual and automatic transmissions, the Phase 2 kit is protected by ROUSH's 3 Year/36,000 Mile Parts Only warranty. Primary components of the Phase 2 ROUSH TVS Supercharger kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- 85 mm Supercharger Pulley
- Aluminum Upper and Lower Intake Manifolds
- High-efficiency Intercooler System
- Twin 60 mm Throttle Body
- Larger 110 mm MAF tube on ROUSH's Cold Air Induction System
- ROUSH Custom PCM Calibration

421390 2011-2014 Phase 2 – 625 HP Calibrated Supercharger Kit

421389 2011-2014 Phase 1-to-Phase 2 Upgrade Kit (525/540/575 HP to 625 HP)

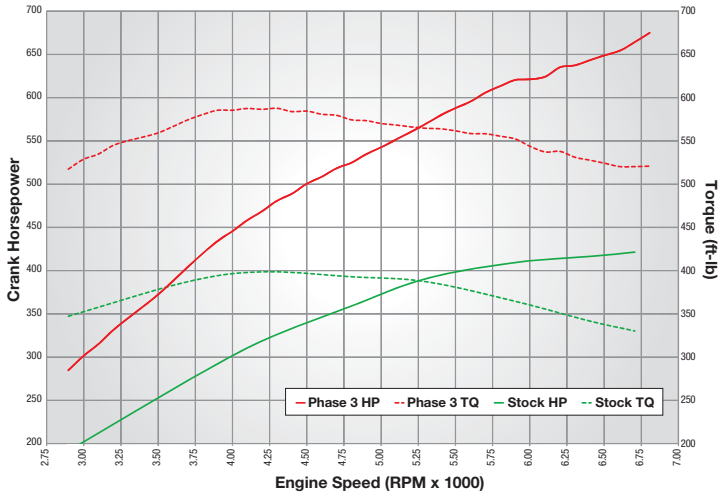
421602 Fuel Pump Voltage Regulator

5.0L MUSTANG

ROUSH Phase 3 Supercharger Kit

2011-2014 Ford Mustang GT 5.0L

PHASE 3 ROUSHCHARGED™



675 HP/585 ft-lb

ROUSH's ultimate power-adder, the Phase 3 Supercharger kit maximizes the 5.0L-4v engine's horsepower production to a concrete smashing 675 HP and 585 ft-lb of torque, an increase of up to 263 HP and 195 ft-lb over stock! ROUSH provides added protection to this kit by featuring a Fuel Pump Voltage Regulator and an easy-to-install Plug-n-Play wiring harness to meet increased fuel demands. As with all ROUSHchargers, the Phase 3 kit is covered by ROUSH's 3 Year/36,000 Mile Parts Only warranty. Primary components of the Phase 3 ROUSH TVS Supercharger kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- Smaller 80 mm Supercharger Pulley
- ROUSH Fuel Pump Voltage Regulator featuring Plug-n-Play wiring
- Aluminum Upper and Lower Intake Manifolds
- High-efficiency Intercooler System
- Twin 60 mm Throttle Body
- Larger 110 mm MAF tube on ROUSH's Cold Air Induction System
- ROUSH Custom PCM Calibration

NOTE: Phase 3 supercharger kits available only for manual transmission applications.

421542 2011-2014 Phase 3 – 675 HP Calibrated Supercharger Kit

421596 2011-2014 Phase 1-to-Phase 3 Upgrade Kit (525/540/575 HP to 675 HP)

421597 2011-2014 Phase 2-to-Phase 3 Upgrade Kit (625 HP to 675 HP)

ROUSH Phase 3 Supercharger Kit – *ALUMINATOR* Edition

2011-2014 Ford Mustang GT 5.0L

675 HP/585 ft-lb

The Phase 3 Supercharger kit "*ALUMINATOR*" edition has been specifically calibrated for those who have the Ford Racing 5.0L *ALUMINATOR* 11.0:1 compression ratio crate engine already installed in their 2011-2014 Mustang GT. The 5.0L *ALUMINATOR* was designed specifically for high performance applications – now is the time to add the power. Delivering 675 HP and 585 ft-lb of torque, the Phase 3 Supercharger kit "ALUMINATOR" edition adds up to 263 HP and 195 ft-lb over the stock ALUMINATOR engine. ROUSH provides added protection to this kit by featuring a Fuel Pump Voltage Regulator and an easy-to-install Plug-n-Play wiring harness to meet increased fuel demands. As with all ROUSHchargers, the Phase 3 kit "*ALUMINATOR*" edition is covered by ROUSH's 3 Year/36,000 Mile Parts Only warranty. Primary components of this supercharger kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- Smaller 80 mm Supercharger Pulley
- ROUSH Fuel Pump Voltage Regulator featuring Plug-n-Play wiring
- Aluminum Upper and Lower Intake Manifolds
- High-efficiency Intercooler System
- Twin 60 mm Throttle Body
- Larger 110 mm MAF tube on ROUSH's Cold Air Induction System
- ROUSH Custom PCM Calibration, specific to the *ALUMINATOR* crate engine
- Requires Ford Racing 11.0:1 Compression Ratio *ALUMINATOR* Crate Motor (part #M-6007-A50NA)

NOTE: Phase 3 "*ALUMINATOR*" Supercharger kits available only for manual transmission applications.

421599 2011-2014 Phase 3 Supercharger Kit "*ALUMINATOR*" edition
421600 2011-2014 Phase 1-to-Phase 3 Supercharger Upgrade Kit "*ALUMINATOR*" edition
421601 2011-2014 Phase 2-to-Phase 3 Supercharger Upgrade Kit "*ALUMINATOR*" edition

Ford Racing 5.0L DOHC *ALUMINATOR* Crate Engine – 11.0:1 Compression Ratio

2011-2014 Ford Mustang GT

Ford Racing has taken the Ford Mustang GT 5.0L-4v TiVCT engine and built this motor in its series of "*ALUMINATOR*" crate engines to deliver high performance. The Ford Racing 5.0L *ALUMINATOR* is built with extreme-duty connecting rods and pistons designed specifically for performance applications. Features of the *ALUMINATOR* 11.0:1 ratio crate engine include:

- 11.0:1 Compression Ratio
- Forged Aluminum Mahle Hard Anodized Pistons with Graphal Low Friction Coating
- Manley Forged Steel H-Beam Connecting Rods with ARP 2000 Bolts
- Forged Steel Crankshaft
- Ford Mustang Boss 302 Connecting Rod Bearings
- Ford Mustang Boss 302 Valve Springs

M-6007-A50NA Ford Racing 5.0L DOHC *ALUMINATOR* Crate Engine – 11.0:1 Compression Ratio

4.6L/5.0L MUSTANG

ROUSH 5.0L TVS Supercharger Tuner Kit

2011-2014 Ford Mustang GT 5.0L
2012-2013 Ford Mustang Boss 302

Designed with race shops and custom tuners in mind, the ROUSH TVS Tuner kit gives you the ability to customize the award-winning TVS kit based on individual needs. This kit, which is capable of producing over 850 HP, allows you to choose your tune and horsepower level, and is protected by ROUSH's 90-Day ROUSH Parts Only warranty. New and improved components of the ROUSH TVS Tuner kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- ROUSH Fuel Pump Voltage Regulator
- Aluminum Upper and Lower Intake Manifolds
- High-efficiency Intercooler System
- Twin 60 mm Throttle Body
- Low-restriction ROUSH Cold Air Induction System

421140 ROUSH TVS Supercharger Tuner Kit

NOTE: Calibration, pulley, belt and fuel injectors not included.

ROUSH Phase 1 Supercharger Kit

2005-2010 Ford Mustang GT 4.6L

PHASE ROUSHCHARGED™

Calibrated to deliver 475 HP and 435 ft-lb of torque to the 2005-2010 Ford Mustang 4.6L-3v V8 powertrain, this Phase 1 ROUSHcharger kit gains up to 175 HP and 115 ft-lb over the stock Mustang. The Phase 1 kit is available only for manual transmission applications and is protected by ROUSH's standard 90-Day ROUSH Parts Only warranty. Primary components of the Phase 1 ROUSH TVS Supercharger kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- 105 mm Supercharger Pulley
- Aluminum Upper and Lower Intake Manifolds
- High-Efficiency Intercooler System
- Twin 60 mm Throttle Body
- Low-restriction ROUSH Air Induction System
- ROUSH Custom PCM Calibration

421107 2010 Phase 1 – 475 HP Calibrated Supercharger Kit (does not come with an open element air box)

421099 2005-2009 Phase 1 – 475 HP Calibrated Supercharger Kit

Part #421099 shown.

475 HP/435 ft-lb

NOTE: Not for sale in California or other EO "green" states.

ROUSH Phase 2 Supercharger Kit

2005-2010 Ford Mustang GT 4.6L

Bringing the stock 4.6L-3v V8 Mustang to an impressive 550 HP with 500 ft-lb of torque, the Phase 2 ROUSHcharger adds up to 250 HP and 180 ft-lb over stock. Available for manual transmissions only, the Phase 2 kit is protected by ROUSH's standard 90-Day ROUSH Parts Only warranty. Primary components of the Phase 2 ROUSH TVS Supercharger kit include:

- ROUSH TVS 2.3L Roots-style Supercharger
- 80 mm Supercharger Pulley
- Aluminum Upper and Lower Intake Manifolds
- High-Efficiency Intercooler System
- Twin 60 mm Throttle Body
- Larger 110 mm MAF tube on ROUSH's Cold Air Induction System
- ROUSH Custom PCM Calibration
- Dual Pump Fuel System

421108 2010 Phase 2 – 550 HP Calibrated Supercharger Kit
421109 2010 Phase 1-to-Phase 2 Supercharger Upgrade Kit (475 HP to 550 HP)
421100 2005-2009 Phase 2 – 550 HP Calibrated Supercharger Kit
421101 2005-2009 Phase 1-to-Phase 2 Supercharger Upgrade Kit (475 HP to 550 HP)

550 HP/500 ft-lb

NOTE: Not for sale in California or other EO "green" states.

ROUSH M90 Supercharger Kit

2005-2010 Ford Mustang GT 4.6L

The ROUSH M90 Supercharger kit is a great introductory kit for those looking to boost performance at a great value. Generating 435 HP and 400 ft-lb of torque, the M90 Supercharger adds over 120 HP and 75 ft-lb to the stock 4.6L-3v V8 Mustang. Available for both automatic and manual transmissions, the M90 Supercharger kit is protected by ROUSH's industry leading 3 Year/36,000 mile Complete Drivetrain warranty and is legal in all 50 U.S. states! (CARB E.O. #D-418-18) Primary components of the ROUSH M90 Supercharger kit include:

- ROUSH M90 Roots-style Supercharger
- 73 mm Supercharger Pulley
- High-efficiency Intercooler System
- ROUSH Induction System
- Aluminum Upper and Lower Intake Manifolds
- High-flow Fuel Injectors

Part #420023 shown.

420023 2010 M90 – 435 HP Calibrated Supercharger Kit
420116 2009 M90 – 435 HP Calibrated Supercharger Kit
420114 2007-2008 M90 – 435 HP Calibrated Supercharger Kit
420112 2005-2006 M90 – 435 HP Calibrated Supercharger Kit

435 HP/400 ft-lb

MUSTANG

ROUSHcharger Cold Air Intake Kit
2011-2014 Ford Mustang GT Equipped with Supercharger

Unleash additional horsepower and torque from your 2010-2014 ROUSHcharged Mustang. Features the ROUSH reusable air filter, air dam, and induction tube. Kit requires custom PCM calibration. Works with ROUSH 2.3L TVS supercharger kits as well as 2011-2014 5.0L Ford Racing and Whipple 2.3L and 2.9L supercharger kits (when using GT500 throttle body).

NOTE: Not approved for use in California or states that require a California EO#.

421529 2011-2014 ROUSHcharger/ Supercharger Cold Air Intake Kit

ROUSHcharger Cold Air Intake Kit
2005-2009 Ford Mustang GT Equipped with Supercharger

The ROUSHcharger Cold Air Intake kit features the ROUSH reusable air filter, air dam, ROUSH PCM calibration, and induction tube. Requires a 2005-2009 Mustang GT M90 ROUSHcharger. Includes necessary hardware for quick and easy installation. Please note that this kit will void the ROUSH Drivetrain warranty.

NOTE: Not approved for use in California or states that require a California EO#.

403913 ROUSH Ford Mustang GT ROUSHcharger Cold Air Intake Kit

402901 ROUSH Replacement Air Filter

Cold Air Intake Kit
2010-2014 Ford Mustang GT 2012-2013 Boss 302

Increase your fuel efficiency and gain additional horsepower and torque out of your engine with this ROUSH Cold Air Intake kit. This kit features a custom high-flow ROUSH air filter with clamp, MAF tube, airbox tray with installed EPDM foam hood seal, and mounting hardware. A custom-molded hood insert is also included for those owners of 2013-2014 Mustangs to prevent water from dripping onto the filter from the driver side heat extractor.

NOTE: This product does not fit ROUSHcharged vehicles. Not approved for use in California or states that require a California EO#.

420131 ROUSH Ford Mustang GT Cold Air Intake Kit

421628 2013-2014 Mustang GT Heat Extractor Insert

13109601-AA ROUSH Replacement Air Filter

Cold Air Intake Kit
2005-2009 Ford Mustang GT

Increase fuel efficiency and performance from your 2005-2009 Mustang GT. Featuring the ROUSH air filter and air dam this kit includes all necessary hardware for installation.

NOTE: EO Approved for all 2005-2006 Vehicles Built After 4/30/2005.

402099 ROUSH Ford Mustang GT Cold Air Intake Kit

997-466 ROUSH Replacement Air Filter

Cold Air Intake Kit
2011-2014 Ford Mustang V6

Gain an additional 13 HP and 15 ft-lb of torque out of your engine, while increasing your fuel efficiency. This kit includes a ROUSH air filter, air dam, and induction tube, and all necessary hardware for installation.

NOTE: Not approved for use in California or states that require a California EO#.

421240 ROUSH Ford Mustang V6 Cold Air Intake Kit

Cold Air Intake Kit
2005-2009 Ford Mustang V6

Get an additional 12 HP and 9 ft-lb of torque out of your engine, while increasing your fuel efficiency. This kit features the ROUSH air filter, air dam, and induction tube, and all necessary hardware for installation.

NOTE: Legal in all 50 states for 2005-2007 model years only.

402098 ROUSH Ford Mustang GT Cold Air Intake Kit

997-466 ROUSH Replacement Air Filter

Heavy-Duty Belt Tensioner
2005-2010 Ford Mustang 4.6L

Tensioner designed for heavy-duty applications to handle the added rotational forces on the FEAD due to supercharging. This is an upgrade unit to the stock M90 supercharger only.

404225 Heavy Duty 4.6L-3V Belt Tensioner

Underdrive Pulley
2005-2010 Ford Mustang GT

This underdrive pulley has a diameter that is 25% less than stock so 25% less power is diverted to running accessories. More power is freed for performance. Fits 2005-2010 Mustang GTs with 4.6L engine only, and does not work with ROUSHcharged vehicles.

401433 Ford Mustang GT Underdrive Pulley

ROUSHcharger Intercooler (Low Temp Radiator)
2010-2014 Ford Mustang

This is the same intercooler (low temp radiator) that is included in both the M90 and R2300 ROUSHcharger kits for 2010-2014 Mustangs.

421153 ROUSHcharger Intercooler (Low Temp Radiator)

ROUSHcharger Intercooler (Low Temp Radiator)
2005-2009 Ford Mustang

This is the same intercooler (low temp radiator) that is included in both the M90 and R2300 TVS ROUSHcharger kits for 2005-2009 Mustangs.

401745 ROUSHcharger Intercooler (Low Temp Radiator)

MUSTANG

High Performance Driveshaft
2005-2010 Ford Mustang

Developed to handle the stress of drag racing launches. Replaces the factory two-piece driveshaft and includes a new pinion flange for reduced overall weight. The factory driveshaft weighs 38 lb, this ROUSH Driveshaft weighs only 26 lb. Made from 3.5" diameter steel with a 0.083" wall and slip spline rear. Covered by the ROUSH Competition Parts Warranty.

402263 High-Performance Driveshaft

Heavy Duty Clutch Disc with Shim Kit
2005-2010 Ford Mustang GT

Specially chosen for the ROUSH P-51A and P-51B Mustangs for its heavy-duty capabilities. Also works with 2005-2010 Mustang GTs.

Features include:

- Cera-metallic lining material for maximized coefficient of friction with production Mustang level clutch pedal efforts.
- Utilizes high production volume pressure plate design and shim to develop required clamping force.
- Cushion spring between flywheel side and pressure plate side friction linings to improve engagement feel.
- Radial spring damper on clutch disc to reduce engine torsional variation into transmission.

404001 Heavy-Duty Clutch Disc with Shim Kit

Serpentine Belt
2005-2014 Ford Mustang

Replacement serpentine belts for 2005-2014 ROUSH Superchargers. For proper replacement part, please refer to the long number printed on the outside of the belt.

NOTE: Not approved for use in California or states that require a California EO#.

421609 Ford Focus ST ROUSH Cold Air Intake Kit

EXHAUST

"I know that when I get behind the wheel of an American muscle car or truck, I want to hear that sound of power, and that's what we've designed the ROUSH exhaust to do. You'll get the rumble you want, but also some increased efficiency which, in some cases, can add to the performance and horsepower." — *Jack Roush*

ROUSH exhaust kits are designed not only to enhance the sound of your vehicle, but also to augment the horsepower and efficiency of your engine. This is in part achieved with mandrel tube bending, which minimizes any decreased airflow through pipe bends. This method allows for a significant increase in flow over stock/crushed-bent pipes. Due to this increased efficiency, both latent power and fuel efficiency are realized. In addition, ROUSH exhausts are made from high-quality steel for overall quality and longevity. A ROUSH exhaust system should be on your "must add" list of parts.

MUSTANG

SCAN HERE FOR MORE INFO

The 2011-2014 Mustang exhaust kits feature ROUSH's unique open chamber muffler design. These systems provide great sound, without the standard degradation over time of fiberglass packing found in conventional mufflers. ROUSH 2011-2014 Exhaust Kits not only last, but they are also quiet when you're off the gas, not having the drone found with most aftermarket exhaust systems. These kits are available for both V8 and V6 models.

ROUSH Axle-Back Exhaust Kit – Round Tips

2011-2014 Ford Mustang GT & V6
2011-2012 Ford Mustang GT500
2012-2013 Ford Mustang Boss 302

Uses 409 stainless steel in the construction of the pipes and muffler. ROUSH exclusive open-chambered design that will not deteriorate over time unlike conventional fiberglass roving material. Exhaust tips are made from 304 stainless steel and finished with a unique chrome-flashing process. Uses all factory hanger locations and pierce points. No modifications to the vehicle are necessary.

421127 2011-2014 Mustang GT/2011-2012 GT500/2012-2013 Boss 302 Exhaust Kit with Round Tips (fits factory Ford or 2011-2012 ROUSH rear valance)

ROUSH Off-Road Cat-Back Exhaust Kit
2005-2010 Ford Mustang GT/GT500

The ROUSH Off-Road exhaust provides the most aggressive sound for 2005-2010 Mustangs. Made of high-quality 2.5” diameter stainless steel tubing with 4" diameter tips, constructed from polished 304 stainless steel embossed with the ROUSH logo. Fits 2005-2010 Mustang GTs and Shelby GT500s with the stock rear fascia.

403936 2005-2009 Mustang GT/GT500 Off-Road Exhaust Kit

420025 2010 Mustang GT/GT500 Off-Road Exhaust Kit

ROUSH Axle-Back Exhaust Kit
2005-2009 Ford Mustang GT/GT500

Works with the stock rear fascia. This axle-back exhaust system bolts on requires no cutting and attaches to the factory midpipes. Made from 304-stainless steel, which provides for resistance to corrosion and staining.

401423 2005-2009 Mustang GT/GT500 Axle-Back Exhaust Kit

ROUSH Axle-Back Exhaust Kit
2005-2009 Ford Mustang GT

Includes exhaust tips, mufflers, and required hardware for installation. Requires the ROUSH Rear Fascia for 2005-2009 Mustangs (part #401271). This bolt-on axle-back exhaust system attaches to the factory midpipes and requires no cutting.

401339 2005-2009 Mustang GT Off-Road Exhaust Kit with Tips

ROUSH High-Flow Exhaust Kit

2012-2014 Ford Focus

This high-flow cat-back exhaust system comes as complete kit with a straight-through performance muffler, 4" exhaust tips and is made from 409 stainless steel for added durability. Includes ROUSH's 3 year/36,000 mile warranty. Fits all 2012-2014 Ford Focus' including ST models.

421610 2012-2014 Ford Focus ROUSH Performance-Flow Exhaust

SUSPENSION

"ROUSH has always been known for being the best in powertrain components, but we also have some of the most knowledgeable chassis engineers in the auto industry on staff. I continually challenge them to design suspension pieces that offer tremendous performance enhancements yet don't make sacrifices when it comes to ride comfort." — *Jack Roush*

There is more to your vehicle's performance than just horsepower. Your suspension system is a key component to the performance and handling of your vehicle. ROUSH®'s line of suspension kits and parts are engineered to maintain a high level of ride quality while increasing performance.

MUSTANG

ROUSH suspension kits are thoroughly engineered and tested to the highest performance standards. Each upgrade package has been painstakingly designed to enhance the unique and subtle balance characteristics of the intended vehicle. Developed by some of the top chassis engineers in the industry, our suspension kits have been developed via hundreds of hours of testing and thousands of miles on both the street and racetracks across the country. Tests include slalom, lane change, and skid pad, and were performed on a wide variety of road surfaces to provide the best combination of ride comfort and road handling. Data used in developing these kits is captured and evaluated using a DIVAS Data Acquisition System, the same equipment used by Ford vehicle engineers.

ROUSH Suspension Kits

2005-2014 Ford Mustang

Completely integrated system for your vehicle providing superior handling, without sacrificing ride quality. Capable of handling over 1.0g lateral acceleration on the skid pad. Includes springs, dampeners, jounce bumpers, and anti-roll bars.

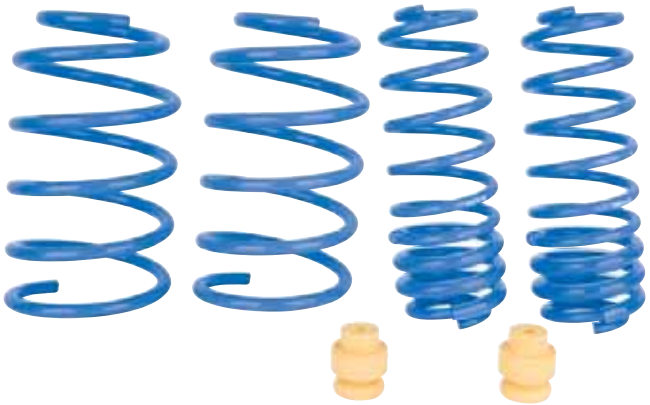
ROUSH Lowering Spring Kit
2005-2014 Ford Mustang

Includes four springs, two each for front and rear. Intended to be used for lowering 2005-2014 Mustangs. Jounce bumpers NOT included but are recommended for improved ride control (part #R06030042-13-AA). Lowers vehicle approximately 1".

404472 ROUSH Mustang Lowering Springs

R06030042-13-AA Jounce Bumper (1 per side)

Extreme Lowering Spring Kit
2005-2014 Ford Mustang



Includes four springs, two each for front and rear. Lowers vehicle approximately 1.25" in front and 1.5" in rear. Includes a set of rear jounce bumpers. These springs are designed to fit stock and aftermarket Mustang shocks, struts, and ROUSH wheels. Not recommended for use on ROUSHcharged vehicles.

402331 Ford Mustang Extreme Lowering Spring Kit

Billet Lower Trailing Arms
2005-2014 Ford Mustang

Adds styling and performance to the rear suspension. Reduces rear deflection. Features rubber bushings that don't crack under loads like polyurethane and provide for much better Noise and Vibration Harshness (NVH) and ride quality. Sold as a pair.

This part is recommended to be used with the Mustang Wheel Hop Reduction Kit (part #401788/#421120).

401429 Ford Mustang Billet Lower Trailing Arms

Wheel Hop Reduction Kit
2005-2014 Ford Mustang

Eliminates wheel hop and improves delivery of power to the rear wheels. Bracket and arm made from high-strength steel.

This part is recommended to be used with the Ford Mustang Billet Lower Trailing Arms (part #401429).

421120 Wheel Hop Reduction Kit – Lowered Vehicles (2011-2014 Mustang)

401788 Wheel Hop Reduction Kit (2005-2010 Mustang)

MUSTANG

Strut Tower Brace
2005-2009 Ford Mustang

Attaches to the strut towers to provide better front stability for improved cornering ability. Powder-coated for durability and longevity. Works with ROUSH M90 supercharged and non-ROUSHcharged vehicles. Does NOT work with ROUSH Plenum Covers or ROUSH TVS supercharged vehicles.

402194 Ford Mustang Strut Tower Brace

Front Spring
1994-2004 Ford Mustang

Provides more rigidity and stability for your car's suspension, improving its cornering ability. Sold separately; two are required.

Rear Shock
1994-2004 Ford Mustang

Provides more rigidity and stability for your car's suspension, improving its cornering ability. Sold separately; two are required.

SM01-3650-V8 Ford Mustang Rear Shock

BRAKES

"Any high-horsepower car needs the ability to stop quickly and safely. Our ROUSH engineering team has developed a line of brake options depending on your specific needs for the street or the track. They not only add a meaty look to the car, but they add the peace of mind knowing that you will stop when you want." — *Jack Roush*

Every ROUSH brake package is extensively engineered and tested by ROUSH's own performance engineers to provide optimum stopping performance for your vehicle. ROUSH brake parts are certified over many hours on the track as well as the street. Rather than simply providing the best quality brake available, ROUSH takes its development a step further by finely tuning its brake offerings to the specific application as part of a whole system. The benefit of this approach is that ROUSH brake parts work seamlessly with the other dynamic aspects of your car.

MUSTANG

Calipers available in red or black.

ROUSH has raced week-in and week-out on all track types for over thirty years. A race car's brakes are just as critical as the powertrain. We know brakes, and we're committed to offering you a number of performance Mustang braking solutions to best meet your needs.

The four-piston kit is standard equipment on some of ROUSH's highest performance vehicles, including the ROUSH Stage 3 Premier Edition Mustang, as well as the previous ROUSH P-51, Stage 3, and Black Jack Mustangs. Our four-piston front Mustang brake kit is great for use on both the road and track, while our six-piston kit adds even more performance for the track with added thermal capacity and increased pad stability under intense braking.

ROUSH 4-Piston Two-Piece Front Brake Kit

2005-2014 Ford Mustang

Includes four-piston forged-aluminum calipers with braided brake lines, front brake pads (part #401471), 14" two-piece front left slotted zinc-washed rotor (part #401600), and 14" two-piece front right slotted zinc-washed rotor (part #401601). The two-piece rotor design features a lightweight, aluminum top-hat for improved performance. Braided stainless steel brake lines also provide a firmer pedal, faster response, and durable outer cover. The kit fits Mustangs with ROUSH 18" x 10" or 20" x 9.5" wheels and may fit other aftermarket wheels, check off-set for proper caliper clearance.

401599 2005-2014 Ford Mustang 4-Piston Two-Piece Front Brake Kit – Red

950.61002.00 Front Brake Line Kit

ROUSH 6-Piston Two-Piece Front Brake Kit

2005-2014 Ford Mustang

Developed specifically for intense braking on the track with shorter stopping distances, better brake modulation, firmer brake pedal, and less brake fade. Highly rigid six-piston front calipers made from forged aluminum and provide for better pedal feel under extreme braking conditions and better distribution of braking force, eliminating radial pad taper. Six-piston design and larger than OEM pads provide for lower pad temperatures and better pad life. The two-piece rotor design features a lightweight, aluminum top-hat for improved performance. Braided stainless steel brake lines provides firmer pedal, faster response, and durable outer cover. The kit fits Mustangs with ROUSH 18" x 10" or 20" x 9.5" wheels and may fit other aftermarket wheels, check off-set for proper caliper clearance.

WHEELS

"When picking out a wheel, look for the performance aspect, as well as the visual appeal. ROUSH wheels have a durable finish, whether they're chrome-plated or painted, and are wider than factory wheels and tires, improving the grip and stance of your Mustang. Either way, ROUSH wheels are going to add a unique style to your ride." — Jack Roush

Give your vehicle sleek and aggressive styling with ROUSH wheels. Simply put, they can make your car look fast even when it's standing still. The wheels in this unique line are designed and built to OE-level quality standards while increasing performance. In addition, ROUSH wheels work as part of a balanced system with other ROUSH part kits, such as the suspension and braking products, to provide an optimized balance between handling and braking.

MUSTANG

Add serious performance and styling to your 2005-2014 Mustang with ROUSH 20” Chrome wheels. These wheels are the perfect way to start or finish your Mustang make-over. The classic ROUSH five-spoke design gets a modern twist with a sleek radius and flush mount to the tire. Additionally, these wheels have been thoroughly tested to meet ROUSH’s appearance and durability requirements. Transform your Mustang into a head-turning showpiece, on the street or the track.

ROUSH 20" x 9.5" Chrome Aluminum Wheel

2005-2014 Ford Mustang

This cast wheel is available with or without Cooper Zeon RS3-S Series high performance tires. The wheel is made with chrome-plated cast aluminum and features the classic ROUSH five-spoke design. These wheels are compatible with the ROUSH brake systems. Each set of 20" wheels requires one Steering Rack Stops and Clamps Kit (part #404476).

BODY

"Be very careful when purchasing body kits as there can be a huge difference in the quality. Some companies work from an inexpensive splash mold which tends to show imperfections and waves in the finished product. At ROUSH, we work from the OEM CAD data which ensures a perfect match. This ensures that we control the quality each and every step, and that you will receive a body kit that fits as good as it looks." — Jack Roush

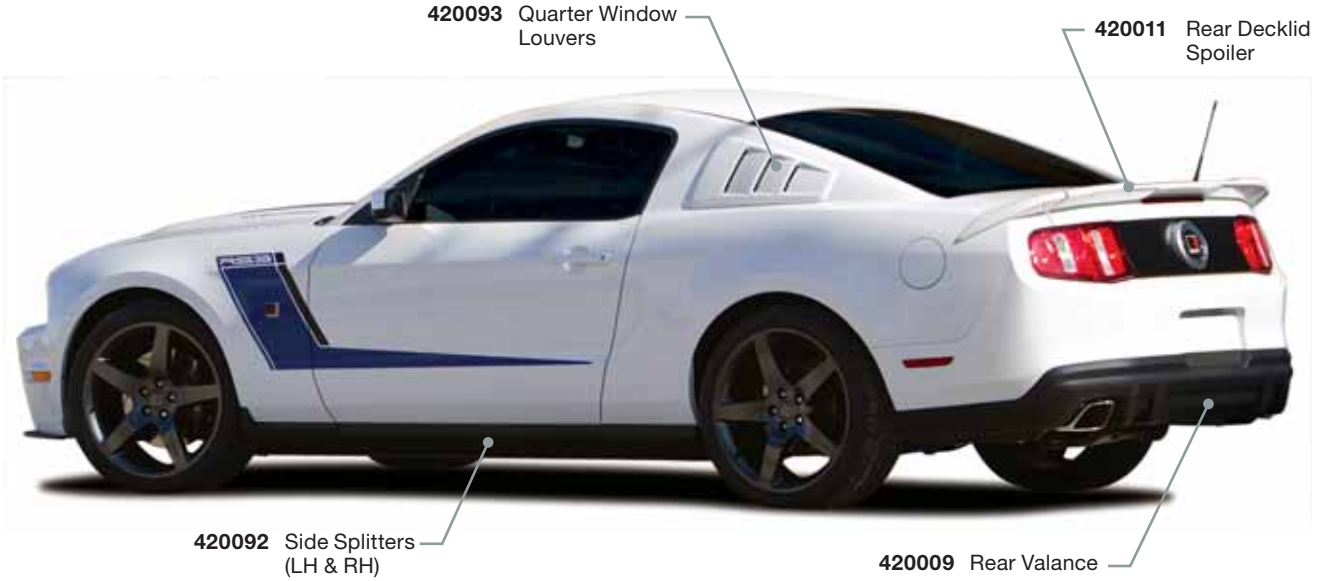
ROUSH body components add sleek and aggressive styling to your vehicle while providing the highest level of quality. The materials used in these components are carefully selected for superior appearance, longevity, reduced weight, heat resistance and impact resistance. Furthermore, ROUSH body parts are designed using OEM CAD data, ensuring that the pieces will fit on your car quickly and easily, in most cases using existing hardware locations to minimize drilling. This is in stark contrast to body parts from our competitors that often require trimming and sanding in order to get them to fit properly. These ROUSH kits also come with all required hardware.

MUSTANG

ROUSH 'R6' Aerobody Components
2013-2014 Ford Mustang

Add true race-inspired styling to your 2013-2014 Ford Mustang with ROUSH Sixth-Generation Aerobody Components. These pieces were designed to fit both GT and V6 packages and are made from high-strength TPO (thermal poly-olefin) and ABS (acrylonitrile butadiene styrene) for long-lasting durability.

ROUSH 'R5' Aerobody Components
2010-2012 Ford Mustang



Give your 2010-2012 Ford Mustang a sleek and aggressive look with ROUSH 'R5' Aerobody Components. Most pieces were designed to fit both GT and V6 Mustangs – please check individual items for model fitment. Each piece is made from high-strength TPO (thermal poly-olefin) and ABS (acrylonitrile butadiene styrene) for long-lasting durability.

MUSTANG

ROUSH 'R4' Aerobody Components
2005-2009 Ford Mustang

Make your 2005-2009 Mustang stand out from the rest of the crowd with this aerobody package from ROUSH. Available as a complete body kit (unpainted – part #401421) or as individual components (unpainted only). Complete kit includes front fascia, chin spoiler, hood scoop, rocker moldings, quarter window louvers, rear fascia, and rear wing. Quick and easy installation and includes all required mounting hardware.

NOTE: Rear Valance requires Exhaust Kit (part # 401339) for correct shape and placement of the exhaust tips. Hood Scoop does not fit hoods with factory hood scoop installed. Rear Valance does not fit Ford California Special vehicle package.

ROUSH 'R3' Aerobody Components
1999-2004 Ford Mustang

Stylize your 1999-2004 Mustang with the R3 Aerobody Kit. Purchase components individually or as a complete kit (part #SM01-1K001-AA body kit with wing or SM01-1K002-AA body kit without wing). Includes front fascia kit, left and right side valance, left and right rear valance, and optional rear wing. Includes required mounting hardware and instructions.

Not Shown:

INTERIOR

"There are a lot of ways to customize your Mustang and turn it into a one-of-a-kind car, both quickly and inexpensively. Leather seats and billet accessories are all ways that can improve the interior look, feel, and functionality of your vehicle."
— Jack Roush

ROUSH interior components add performance, functionality, and styling elements to your vehicle. You can spice up your vehicle's interior with our leather seating, which features hand-selected high-quality leather, as well as improved side-to-side driver stability to keep you planted in your seat while going around turns at speed. Give your vehicle a completely new look on the inside with our interior trim kits, or achieve race-inspired shifting feel and functionality with our line of shifter knobs, arms, boots, short-shifter assemblies, and shifter bezels.

Race Red shown.

Add style and rigidity with the Ford Racing Rear Seat Delete with Painted X-Brace Kit. Original equipment on the Boss 302 Laguna Seca edition, this kit transforms your late-model Mustang into a stylish two-seater sports car. The three-piece kit reduces rear-end weight and adds strength to the trunk-end, ultimately decreasing flex.

Rear Seat Delete With Painted X-Brace

2005-2014 Ford Mustang V6 and GT
2007-2014 Ford Mustang GT500

This kit features a painted X-Brace, two factory-matched carpeted panels, and all necessary hardware for installation. Available in the stock Ford Racing grey hammertone color and nine factory matched exterior colors, which are painted with the same base coat and clear coat urethane body paint that Ford uses.

MUSTANG

Leather Seats

2005-2014 Ford Mustang

Features larger side bolsters for better lateral support in turns and seat cushioning that is denser foam than that used in the stock seats with embroidered Jack Roush signature. Made of high-quality leather. **NOTE:** 2005-2007 kits will not work with optional side air bags (inside seats). Not recommended for installation on vehicles with the factory cloth option.

Please note this kit does not replace the seat core itself. It only replaces the existing covers of the stock seat.

***All seats special order. Please allow 3-4 weeks for delivery.**

ROUSH Oval Grille Badge

2005-2008 Ford F-150

This grille badge features the ROUSH logo, and adheres on top of the existing (large) Ford emblem on the front grille.

401594 ROUSH Oval Grille Badge (size = 8.1" x 3.1")

RADAR DETECTORS

ESCORT® RedLine Radar Detector

RedLine provides the longest range for every signal out there. Its twin-antennae design allows it to maximize performance by band, giving you the longest warning possible.

The ESCORT® RedLine is the most advanced radar, laser, and safety detector ever designed by ESCORT®. The ESCORT® RedLine includes full X, K, SuperWide Ka, and Safety Warning System radar capability, front and rear laser detection, dual antennae with varactor-tuned (VTO) microwave receiver, digital signal processing (DSP) for superior range and reduced false alarms, our patented Mute and AutoMute, audible and visual band alerts, and all the performance you'd expect from ESCORT®.

420251 ESCORT® Redline Radar Detector

ESCORT® Passport 9500ix Radar Detector

GPS-powered PASSPORT 9500ix, is no exception. It provides the best long-range protection against every known radar and laser gun in use in North America, but also incorporates GPS accuracy to silence each and every false alert. We then added a new automatic way of eliminating false alarms called "AutoLearn". This remarkable new feature utilizes our patented GPS technology to identify and eliminate false alarms automatically while you drive using artificial intelligence.

Now, the only alerts you will get are the ones that really count! The result is the best possible protection that only ESCORT can provide, without the constant distractions of false alarms. It is by far the most intelligent, fully automatic radar and laser detector ever designed.

420173 ESCORT® Passport 9500ix Radar Detector

ESCORT® Passport 9500Ci Radar Detector

The all-new PASSPORT 9500ci offers radar laser sensitivity second to none. In addition to everything learned from the award-winning 9500i windshield model, added artificial intelligence automatically learns the source of all signals. False alerts are permanently locked out (over time), while real threats are processed in less than 1/2 second. Features ultimate in custom-installed discreet protection, precise laser shifting technology*, 360-degree protection, blistering all-band radar protection, completely undetectable to all "Detector Scanners", variable-speed radar performance, GPS-powered Truelock filter, mark location features, adaptive signal processing, speed alert, crystal-clear voice alerts, database compatible (safety cameras, speed traps, etc.), user-selectable preferences, high-resolution brilliant blue display, 5 levels of brightness control, Mute, AutoMute & SmartMute, safety warning system, 60 specific safety messages. Comes fully equipped with a comprehensive owner's manual and installation guide, separate miniature controller and text display, front-mounted radar receiver, twin front-mounted laser receivers/shifters, rear license plate mounted laser receiver/shifter, 12-volt interface module, GPS antenna, 12-volt amplified speaker, display bezel, bi-color LED, and all mounting hardware.

*Laser shifting feature may be limited or prohibited in some jurisdictions. Check applicable laws before using.

404062 ESCORT® Passport 9500ci Radar Detector

ESCORT®
DRIVE SMARTER™

RADAR DETECTORS

ESCORT® Passport Qi45™ Radar Detector

Introducing the Passport Qi45™ (or "Quick Install" as we call it internally), a fully integrated, high-performance radar and laser detector system. It offers the convenience of built-in discreet security yet installs in dramatically less time and with fewer components than all other integrated detection systems. The bottom line is significant cost savings over all other installed radar detectors. The Passport Qi45™ was designed to be installed in 1 hour or less. How's that for reducing installation time? You can do it yourself or contact us to learn more about our nationwide network of professionals offering worry-free affordable installation.

420250 ESCORT® Passport Qi45 Radar Detector

ESCORT® Passport 8500 X50 Radar Detector

Hailed as the most revolutionary radar/laser detector ever. Provides extreme detection range on all police radar; conventional and "instant-on" radar. Digital signal processing (DSP) provides maximum range, with minimum false alarms. Features blistering all-band protection, 360-degree radar and laser detection, advanced digital signal processing, AutoSensitivity Mode automatically reduces false alarms, EZ-Programming allows instant customization, selectable POP Mode radar detection, 3 high-resolution meter modes, ultra-bright matrix display with 280 LEDs, brilliant blue or high-intensity red display, multiple high-performance laser sensors, built-in earphone jack, Mute & AutoMute, SmartCord and travel case included. Completely immune to the VG-2 "Detector-Detector". 1-year limited warranty.

404059 Passport 8500 X50 Radar Detector – Blue

404060 Passport 8500 X50 Radar Detector – Red

SOLO S2 Cordless Radar Detector

Cordless SOLO S2 radar and laser detector provides portable convenience and protection. Just stick to windshield, turn it on, and go. Features: blistering all-band protection, 360-degree radar and laser detection, convenient cordless design uses 2 AA batteries (included), advanced digital signal processing, AutoSensitivity mode virtually eliminates false alarms, ultra-performance laser protection, completely immune to the VG-2 "Detector-Detector", 10 user-programmable features, high resolution graphic LCD display, built-in earphone jack, patented ESCORT technology, optional SmartCord compatible. Limited 1-year warranty. Batteries and travel case included.

404061 SOLO S2 Cordless Radar Detector

ESCORT® Entourage™ PS

Experience truly portable security and location awareness for your vehicles and other belongings with ESCORT Entourage™ PS, combining always-on GPS tracking, tamper-sensing technology and instant security alerting through e-mail and text message. Discover real portability with the UltimateSense™ antenna that makes it easy to hide the PS in a variety of places. Real location awareness lets you share your vehicle's movements with people you know on their Blackberry® smart phones or browser-enabled mobile phones and computers. And real security takes the guesswork out of security by setting a new 'security zone' when armed, and alerts you when it's been compromised. These features and more make choosing Entourage PS real easy.

*Activation and Subscription Plan required for use.

420247 ESCORT® Entourage PS

RADAR DETECTORS

ESCORT® Entourage™ CIS

Protect, share, and connect with ESCORT® Entourage™ CIS, the most effective permanently installed vehicle protection system, combining always-on GPS tracking with instant mobile text message and web alerts, motion-sensing technology, and the exclusive GPS Monitoring and Recovery Service option, should your vehicle be stolen. Enjoy maximum security and convenience with the MyPass™ key fob that automatically arms and disarms the CIS. Maximum location awareness lets you share your vehicle's movements with people you know. And ultimately, experience maximum peace-of mind knowing that you own the one vehicle security system that provides you with an unequaled extra layer of assurance for the things you value most.

*Activation and Subscription Plan required for use.

420248 ESCORT® Entourage CIS

404063 Direct Wire SmartCords – Red

404064 Direct Wire SmartCords – Blue

Laser Shifter Pack

The Qi45™ Shifter Pack allows you to easily add Laser Shifting technology to the Qi45™ at any time. Simply plug in these shifters (front) to the front radar receiver and increase your overall level of protection. No need to pull any additional wires through the firewall!

420252 ESCORT® Laser Shifter Pack

STRIPES & GRAPHICS

"The Ford Mustang is a platform that people love to customize, but many of the ways to accomplish that can get quite expensive and time-consuming. ROUSH Performance has now made available a variety of vinyl stripe options for 2005 to 2013 Mustangs that can quickly and inexpensively turn a "one of many" Mustang into a "one-of-a-kind" trick pony." — Jack Roush

Like those used on the ROUSH Mustang builds, these vinyl components are cut from a high-performance graphic film which offers superior resistance to ultraviolet rays and has strong adhesion qualities. All are designed and made in the United States in Roush's state-of-the-art graphic studios.

MUSTANG

Vinyl Graphics

Looking to personalize your ride? Let the ROUSH Performance Graphics Department help customize your vehicle. The ROUSH Graphics department is a full-service graphics lab, located inside the ROUSH Performance Assembly office, offering design, production and installation services.

Choose from any pre-designed stripe package to fit your late model Mustang or F-150, or contact ROUSH graphics for a custom design and color palette to fit your graphic needs. ROUSH Graphics offers a full-range of possibilities, from unique stripes and colors, to full vehicle and transporter wraps.

GENERAL INFORMATION

ORDERING INFORMATION

GENERAL INFORMATION ABOUT PRODUCT

In the Motorsports industry, the ROUSH® name equates to quality, high-powered performance which translates to the automotive performance products ROUSH Performance offers you, our customer. Because many of the products in this catalog are only for specific applications, please make sure that the product you order is for the make and model of vehicle you intend to install it on. You are responsible for inspecting each product you purchase and receive from us before installation. ONCE YOU INSTALL OR PAINT ANY PRODUCT, IT IS NOT RETURNABLE. Further, unless otherwise noted, all products are sold as individual pieces.

HOW TO ORDER

Retail orders for any of the products found in this catalog can be placed through our website at http://www.ROUSHperformance.com, or by calling ROUSH direct at 800.59.ROUSH (800.59.76874), or by contacting any ROUSH® dealer listed on our "Dealer Locator" page by going to http://www.ROUSHperformance.com. Professional body shops or non-ROUSH® dealers should contact ROUSH direct at 800-59.ROUSH, or a local wholesale distributor, also listed on our website http://www.ROUSHperformance.com, that sells ROUSH® product(s).

TERMS OF SALE

All product orders are subject to Roush's Terms and Conditions of Sale, which are available at the http://www.ROUSHperformance.com website under the "Terms of Sale" link located at the bottom of the webpage.

SHIPPING AND HANDLING CHARGES

For Roush's current shipping and handling charges, please refer to Roush's Terms and Conditions of Sale, which are available at the http://www.ROUSHperformance.com website under the "Terms of Sale" link located at the bottom of the webpage.

TEXT, PRICING AND PHOTOGRAPHS; DISCLAIMER

Typographical errors in text, content, pricing and photographs of products found in this catalog may occur and are subject to correction by ROUSH.

ROUSH's Terms and Conditions of Sale and policies as well as product(s) warranties, pricing, specifications, and availability are all subject to change without notice. Compliance with all Federal, National, State, Provincial or local laws are your responsibility. Any claims by ROUSH regarding, without limitation, product(s) performance are based on controlled tests and actual results may vary based on your particular application. Due to availability and upgrades, the product(s) you receive could be different from photographs shown in this catalog. ROUSH shall not be liable to you for, without limitation, any ticketed violations or fines incurred by you and arising from the installation of any part or system sold from this catalog.

ROUSH® PARTS AND ACCESSORIES – LIMITED WARRANTY

ROUSH's warranty obligations for ROUSH® Parts and Accessories (individually and collectively "Part(s)") is limited to defects in materials and workmanship, as solely determined after ROUSH's careful inspection, for that period identified in the policies below that begins on the date of retail purchase by the original end-user purchaser ("Warranty Period").

Warranty Period: 90 Days from the date of retail purchase by the original end-user purchaser.

*Excludes ROUSH Wheels; ROUSHcharger®; ROUSH® Overstock; Non-ROUSH Parts and Accessories and ROUSH® Competition Parts which the warranty coverage for the foregoing, if any, is separate from that explained here.

For specific warranty information and applicable exclusion and limitations for ROUSH® Parts and Accessories, refer to www.ROUSHperformance.com website under the "Limited Warranty" link located at the bottom of the webpage.

ROUSH® WHEELS – LIMITED WARRANTY

FORGED WHEELS, CAST WHEELS, and PAINTED WHEELS The wheel finish is covered for the earlier of 1 year or 12,000 miles from the date of retail purchase by the original end-user purchaser. If tires are included with the purchase of wheel(s), they are separately warranted by the tire manufacturer.

For specific warranty information and applicable exclusions and limitations for all ROUSH® Wheels, refer to www.ROUSHperformance.com website under the "Limited Warranty" link located at the bottom of the webpage.

ROUSHcharger® – LIMITED WARRANTY

For specific warranty information and applicable exclusions and limitations for all ROUSHcharger® products, refer to www.ROUSHperformance.com website under the "Limited Warranty" link located at the bottom of the webpage.

ROUSH® OVERSTOCK – NO WARRANTY

All products offered on ROUSH® OVERSTOCK are overstocked product and may be the last of their kind in our inventory. Since **ALL SALES ARE FINAL AND CANNOT BE RETURNED OR EXCHANGED**, please make sure the product you purchase is for your specific application including the make and model of the vehicle you intend to install it on. EACH PRODUCT PURCHASED FROM ROUSH® OVERSTOCK IS A FINAL SALE AND IS SOLD "AS IS", "WHERE IS", "WITH ALL FAULTS", AND WITHOUT ANY EXPRESS GUARANTEES OR WARRANTIES WHATSOEVER. TO THE GREATEST EXTENT PERMITTED BY STATE AND FEDERAL LAW, ROUSH® DISCLAIMS ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING, WITHOUT LIMITATION, THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE; REGARDLESS IF A PARTICULAR PURPOSE IS IDENTIFIED IN ASSOCIATION WITH THE PRODUCT INCLUDING, WITHOUT LIMITATION, ANY DESCRIPTION OF THE PRODUCT OR AS A RESULT OF REPRESENTATIONS MADE BY ROUSH® OR ANY RESELLER OF THE PRODUCT PURCHASED FROM ROUSH® OVERSTOCK. ROUSH® EXPRESSLY DISCLAIMS ALL LIABILITY FOR DIRECT, INDIRECT, SPECIAL INCIDENTAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES (REGARDLESS IF ROUSH® HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGE), INCLUDING, WITHOUT LIMITATION, INJURY TO PERSONS INCLUDING DEATH; DAMAGE TO OR LOSS OF PROPERTY OR EQUIPMENT; COST OF LABOR; LOSS OF PROFITS, WINNINGS OR REVENUE; COST OF PURCHASE, COST OF SUBSTITUTE PRODUCTS OR REPLACEMENT OF GOODS; THE COST OF OR ANY VEHICLE COMPONENTS OR PARTS AFFECTED BY, THE PRODUCT PURCHASED FROM ROUSH® OVERSTOCK; DOWN TIME COSTS; CLAIMS OF BUYER'S END USERS FOR SUCH DAMAGES THAT WERE IN ANY WAY DERIVED OR RESULTED FROM THE RECOMMENDATION, INSTALLATION OR USE OF THE PRODUCT PURCHASED FROM ROUSH® OVERSTOCK.

NON-ROUSH PARTS AND ACCESSORIES – NO WARRANTY

NON-ROUSH PRODUCTS PURCHASED AT ROUSHPERFORMANCE.COM CARRY THE DIRECT MANUFACTURER'S WARRANTY AND ARE NOT COVERED UNDER THE ROUSH PERFORMANCE PARTS AND ACCESSORIES LIMITED WARRANTY. IF YOU NEED A COPY OF THE MANUFACTURER'S WARRANTY FOR A PRODUCT SOLD BY ROUSHPERFORMANCE.COM, SUCH AS FORD RACING, ESCORT, OR KOOKS, PLEASE CONTACT THE MANUFACTURER OR VISIT THEIR WEBSITE FOR MORE INFORMATION.
